Guillermo Ramírez

Senior React Native Developer

Buenos Aires, Argentina · muriet96@gmail.com · linkedin.com/in/muriet96 · github.com/Muriet96

PROFESSIONAL SUMMARY

Computer Systems Engineer and Senior React Native Developer with 8+ years of experience building and shipping mobile apps for iOS and Android with React Native and TypeScript, plus web frontend with ReactJS. End-to-end experience: from initial project architecture to publishing on the App Store and Google Play.

Specialized in React Native New Architecture (Fabric, Hermes), feature-based modular architecture, checkout flows with integrated payments, multi-country apps and internationalization, offline persistence, automated testing (Jest, React Testing Library, Maestro), and build and release automation. I use AI tools (Claude Code) in my development and code review workflow.

TECHNICAL SKILLS

- **Mobile:** React Native (New Architecture / Fabric, Hermes), React, TypeScript, JavaScript (ES6+), Expo, iOS, Android
- **State and data:** Redux Toolkit, WatermelonDB, Realm, MMKV, SQLite, Axios, React Hook Form, Zod
- **UI and navigation:** React Navigation, Reanimated, Gesture Handler, NativeWind (Tailwind CSS), FlashList, Bottom Sheet, React Native Maps, deep linking (Universal Links / App Links)
- **Native and publishing:** native modules, Gradle, Kotlin, CocoaPods, Xcode, app signing, ProGuard/R8, per-environment flavors and schemes, TestFlight, App Store and Google Play publishing
- **Payments, analytics and notifications:** MercadoPago, Firebase Analytics (GA4), Firebase Cloud Messaging (FCM), CleverTap, OneSignal, Sentry, In-App Review
- **Testing and quality:** Jest, React Testing Library, Maestro (E2E), Detox (E2E), ESLint, Prettier, Husky, SonarQube
- **CI/CD and tools:** GitHub Actions, Node.js release scripts, Git, Claude Code
- **Integrations:** Google Maps, geolocation, QR and barcodes, NFC, Famoco devices, Deepstream (real-time)
- **Internationalization:** i18next, react-i18next, Luxon
- **Web and other:** ReactJS, Python, Odoo, C#

PROFESSIONAL EXPERIENCE

Senior React Native Developer — Central de Pasajes (AIV Soluciones Digitales S.A.)

07/2025 – Present · Buenos Aires, Argentina

Bus ticket booking app for iOS and Android, published on the App Store and Google Play. Operates in 6 Latin American countries (Argentina, Uruguay, Chile, Peru, Bolivia and Paraguay) with support for Spanish, English and Portuguese.

- Bootstrapped the project from scratch in a 2-developer team: feature-based modular architecture, typed service layer, localization and multi-country support. Merged 130+ PRs into the main branch.
- Built most of the checkout flow: search, service selection, multi-deck seat selection, passenger details, coupons and partner agreements, and MercadoPago payments with return deep links.
- Implemented country-specific passenger validation (ID documents, names, date of birth) and duplicate detection with React Hook Form and Zod.
- Built trip management and post-sale features: offline-first trip list (WatermelonDB), QR code tickets, refunds and seat release.
- Migrated React Native from 0.80 to 0.86 (New Architecture, Hermes), adding edge-to-edge support on Android 15+ and layouts for foldable devices.
- Automated builds and releases across 4 environments with Node.js scripts: versioning, APK/AAB and IPA builds, distribution to QA and TestFlight, and build notifications to the team.
- Maintain about 4,700 unit and integration tests (Jest and React Testing Library) plus E2E tests with Maestro. Every PR is validated with GitHub Actions and SonarQube.
- Implemented full checkout-funnel analytics (GA4 and CleverTap) with personal data anonymization, push notifications (rich push), deep linking and a mandatory minimum-version check.
- Created Claude Code skills for the team that generate PR summaries and run automated code reviews based on the project's conventions.

Stack: React Native 0.86, React 19, TypeScript, Redux Toolkit, WatermelonDB, MMKV, React Navigation 7, Reanimated 4, NativeWind, i18next, MercadoPago, Firebase, CleverTap, Jest, Maestro, GitHub Actions, SonarQube.

React Native & Frontend Developer — Mercately
07/2021 – 07/2026

- Developed the platform's omnichannel messaging mobile app, published on the App Store and Google Play.
- Implemented CRM features for managing customers and conversations.
- Built sales order management for retailers.
- Worked on the platform's web frontend with ReactJS.

React Native Developer — Freelance
02/2021 – 07/2021

- Built a real-time communication solution for a client's sales app.
- Migrated an electronic coupon app to React Native.
- Developed a health insurance app.

Mobile Applications Specialist — Conauto C.A.
12/2019 – 02/2021

- Developed two B2B sales apps with React Native: one for sales reps and one for business clients.

Web and Mobile Developer — 5Bits
06/2019 – 12/2019

- Developed mobile apps with React Native, including an inventory management app.
- Developed modules for the Odoo 11 ERP in Python 3.5.

Web and Mobile Developer — Ecuador On Rails
11/2018 – 06/2019

- Developed Android and iOS apps with React Native: gas cylinder delivery (driver and customer apps) and dynamic survey forms for a market research company.
- Developed a stadium access control system using Famoco devices.
- Developed modules for the Odoo 10 and 11 ERP in Python 2.7 and 3.5.

Software Development Intern — Ecuador On Rails
04/2017 – 11/2017

- Mobile app development with React Native, Odoo modules and Python 2.7 scripts.

Freelance Developer
01/2016 – 03/2017

- Python scripting and C# programs.

EDUCATION

- **Computer Systems Engineering** — Universidad de Guayaquil, Guayaquil, Ecuador · 2019
- **Computer Science** — UEAS, Guayaquil, Ecuador · 2014
- **Animal Science** — Istituto Tecnico Agrario Statale, Cesena, Italy · 2015
